## MEMORANDUM

Date: April 12, 2007

Subject: Ron King Archiving Sites without all signatures

To: Lynette Motley  
IANE

From: Ronald King *RK*  
EFLR

Attached is a list of sites that I have unilaterally archived from CERCLIS without following the SOP. My reason for doing this activity was to continue the data cleanup that I had started to meet the April 20, 2007 pull for the site assessment data quality report. Although this archiving activity was separate from the data quality report, while I was doing data quality review, I was concern about continuing to carry these old sites for archiving.

The sites that I archived are sites that have not have an activity conducted since 2001 or earlier. Some of the sites that I archived dated back to 1992.

Another factor is my decision to archive was the resources that would be expended to achieve the archive concurrence for these very old sites. I have estimated that for each site there is a total of 8 hours of level-of-effort spent by all parties involved in the process. I don't believe this is a good use of resources and funding to make a decision on sites that haven't had any activities conducted for a long time and those removal sites that had no state involvement.

Please note that while I was archiving these sites, I also placed a completion date on the records management action code for those sites that had this action code in the site schedule.

I will place a copy of this memo and the Archive Note forms that was prepared by my contractor in Year 2003 for each of these sites.

As you will note these sites are in Missouri. Over the next several months, I plan to continue this activity unless you see a major concern.
